

About us

Launched on March 2021, this Erasmus+ KA2 Strategic partnership project aims to support VET institutions in their digitalization process, providing learning resources to their trainers and staff.

The project partners are:

- **FORAVE** from Portugal
- **IEK DELTA** and **IDEC** from Greece
- **DEFOIN** from Spain
- **EMPHASYS CENTRE** from Cyprus
- the **EUROPEAN DIGITAL LEARNING NETWORK** from Italy

The testing of the project results has started!

In these last project months, after the validation and the release of the main project deliverables (IO1 - Online VET classrooms Toolkit and IO2 - E-learning Course for Administrative/Support and Back Office Staff) the project Consortium has launched **the piloting phase of both results**. All the partners are now working with the project target groups (VET trainers, VET staff, etc.) to test and improve the project outputs in view to their final release.

Partners are selecting good practices and testimonials from pilots to include them in a toolkit, while the training pilot will support the partners in testing methodologies and improving supporting and training materials for VET system.

Would you like to know more about the project results? **Turn the page and discover more!**

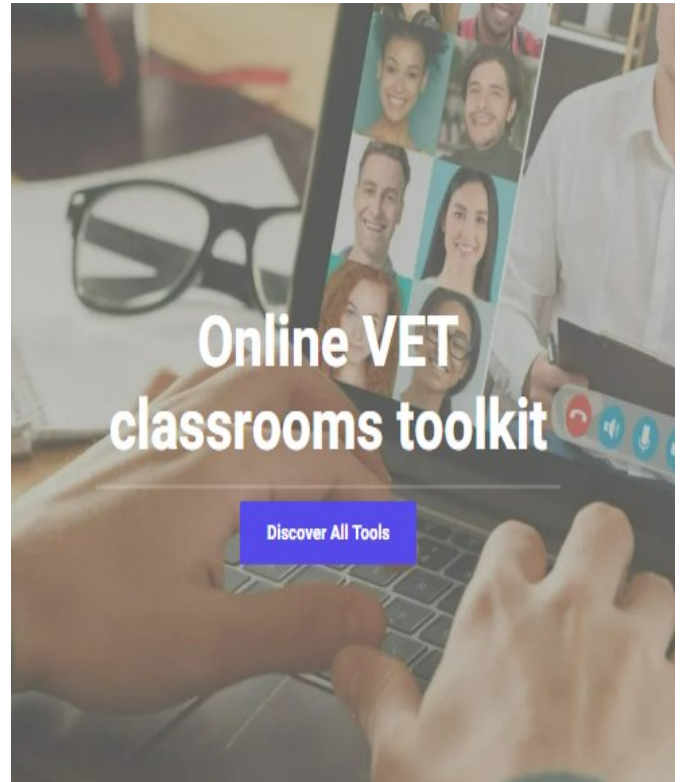

What are we testing right now?

Online VET classrooms Toolkit

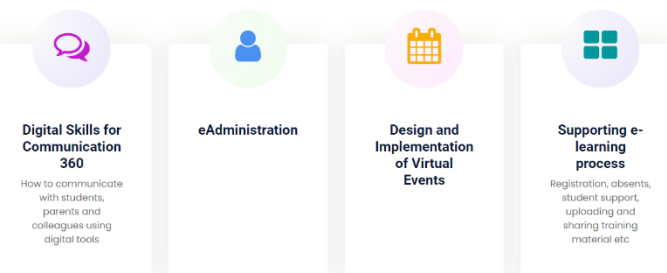

The Online toolkit consists of an online collection of tools and learning resources that VET teachers and trainers can employ to support the digital transformation of VET courses.

Piloting will include the use of the toolkit by VET trainers and other members of the target groups (e.g. students, businesses etc.). In total **+200 participants** will attend in the 5 partners countries.

Discover the project Toolkit here: <https://toolkit.weropen-project.eu/>

CHOOSE AND EXPLORE Courses

E-learning Course for Administrative/Support and Back Office Staff

It consists of an e-learning course for administrative/support and back-office staff of VET institutions.

60 participants involved by FORAVE, IEK DELTA, DEFOIN and EMPHASYS are doing the testing of the **4 modules** devised (**24 hours** in total) and will provide feedback to improve the course!
